

Charging cable with connector T2 Mode 3 Case C, Straight, 4m

General information

Part no.:	E-3301-040B
Type vehicle side	Type 2, free conductor end, AC 1-phase
Specification/Norm	IEC 61851-1

Charging connctor and charging plug

Arangement of phases	1p+N+PE and PP+CP
Current	32A
Current control contacts	2A
Rated operating voltage	200-250V
Rated operating voltage contro	30V
Insulation voltage	500V
Mean time to failure MTTF	>10 000 connections without load

Technical data sheet

Charging connctor and charging plug

information of protection	IP67/IPx9 not plugged in and without closure cap (in relation to the interior of the housing with the exeption of external live parts) - IP54 overall test with closure cap (including external live parts)
IP-Protection	IP54 (IP67/IPx9)
Operating temperature range	-30°C - +50°C
Proximity circuit	220 Ohm
Contact surface material	Silver plated brass
Material of enclosure	strengthened thermo-shape material
Colour vehicle side	black
Charging cable	
8 8	
Charging capacity (kW)	7.4kW
	7.4kW 450/750V
Charging capacity (kW)	
Charging capacity (kW) Rated voltage	450/750V
Charging capacity (kW) Rated voltage Temperature resistance chargin	450/750V -40°C to +80°C Halogen free, flame-resistant, high mechanical resistance, very good cold flexibility, very good oil and fuel resistance, UV-, ozone resistant and
Charging capacity (kW) Rated voltage Temperature resistance chargin Description of the charging ca	450/750V -40°C to +80°C Halogen free, flame-resistant, high mechanical resistance, very good cold flexibility, very good oil and fuel resistance, UV-, ozone resistant and weatherproof
Charging capacity (kW) Rated voltage Temperature resistance chargin Description of the charging ca Cross-section current-carrying	450/750V -40°C to +80°C Halogen free, flame-resistant, high mechanical resistance, very good cold flexibility, very good oil and fuel resistance, UV-, ozone resistant and weatherproof 3 x 6,0mm2
Charging capacity (kW) Rated voltage Temperature resistance chargin Description of the charging ca Cross-section current-carrying Cross section signal conductor	450/750V -40°C to +80°C Halogen free, flame-resistant, high mechanical resistance, very good cold flexibility, very good oil and fuel resistance, UV-, ozone resistant and weatherproof 3 x 6,0mm2 1 x 0,50mm2

Cable colour Outer diameter D Minimum bending radius static Minimum bending radius dynamic

Standards charging cable

Handling

ISO 4982-2, DIN EN 50363-10-2, DIN EN 50267-2-1, IEC 60228, DIN EN 50620, IEC 60332-1

black

4 x D

7,5 x D

12,8 ± 0,40 mm

Further cable lengths and individual colour adjustment on request.

Passing on to third parties only with the approval of Bals Elektrotechnik GmbH & Co. KG

Subject to technical modifications and typographical errors

Only valid at the time of printing. In case of recycling, check the current version.

Incorrect use caused by torsional stress together with simultaneous expansion of cable should be avoided
